

RF 440 round former

For dumplings, balls, croquettes, hamburgers
and cevapcici.

handtmann
Ideas for the future.

For a variety of trend products for small and medium-scale producers ...

... the RF 440 round former.

The Handtmann RF 440 round former is the perfect response for small and medium-scale producers to the strongly increasing trend for a wide variety of convenience products.

Just one system for a wide variety of products and shapes – always with excellent product quality. This is because the technology of the RF 440 round former guarantees high production output coupled with excellent weight accuracy, just as a diaphragm with perfectly-fitting contours ensures impressive form accuracy. Products with a diameter of 10-94 mm can be produced, with a portioning capacity of up to 150 portions per minute.

The modular structure of the system offers maximum flexibility: the 446 conveyor belt facilitates integration of the 446-30 flattening belt for burgers with homemade quality.

TECHNOLOGY

- Diaphragm sizes: 10-45 mm
40-65 mm
60-94 mm
- Belt speed: 2-30 m/min
- Belt height: 850-1,000 mm
- Flattening height with flattening belt: 15-55 mm

» Advantages:

- Well-formed products with maximum form accuracy
- Impressive economic efficiency thanks to high production output of up to 150 portions/minute and a maximum degree of weight accuracy
- For appetising convenience products in a wide variety of shapes and with diameters from 10-94 mm
- Modular system technology for a wide variety of products: 446 conveyor belt for downstream process steps such as roasting, deep frying, packaging etc. or 446-30 flattening belt for burgers with homemade quality

EFFICIENCY

- Highly effective production with up to 150 portions per minute
- Can be attached directly to the VF 600 vacuum filler with continuous loading
- Simple handling facilitates a performance-oriented and efficient mode of operation
- Versatile production of spherical, conical and oval products with just one system

*One system for a wide variety
of products and shapes.*

Variety produced automatically with products that are just as appetising as homemade ones.

Product examples:

Meat processing: hamburgers with homemade quality, rissoles, balls

Vegetarian products: vegetarian burgers, cheese croquettes, potato burgers

Dumplings: potato dumplings, bread dumplings, vegetable dumplings

Soup add-ins: sausage meat dumplings, semolina dumplings, liver dumplings

Fish products: fish balls, fishcakes, fish burgers, fish rissole

Dough processing: various doughs, sweet products
